

# School Partnerships

**The Archie Foundation** makes the difference in healthcare and bereavement support for babies, children and their families .

From large capital projects to the smallest moments of compassion we are there to support everyone on their personal journeys.

We are based at Royal Aberdeen Children's Hospital (RACH) but provide support to units across the North of Scotland from Dundee to Lerwick and many places in between.

We work on an individual basis with our school partnerships and establish a relationship which helps your school be apart of the local community and support appropriate charitable projects.

## How can your school get involved?

### Presentations

Our fundraising officer can visit your school and speak about the work we do.

### Support us at school events

Could your school fundraise for us at school shows or sports days?

### Fundraise for us

Could your class or school take part in one of our sponsored challenges?

### Design for us

Could you help design thank you cards for us to give to our supporters?

## Class Business Challenge

Our Fundraising Officer can work with your class over two sessions to develop your own fundraiser, i.e. a sponsored walk/run, litter pick, concert, or making something sellable.

This includes support with:

- Planning and discussion
- Identifying Skills
- Teamwork
- Event/fundraiser planning
- Delivery
